### Background

Innovative business approach, foresight, sustainability, resource mobilization quality assurance and superior service have been the factors of Giant Group success.

### Nature of Business

The Group Conglomerate of 8 (Eight) units of knit woven garments and textiles establishments, was founded more than 29 years ago. Today company annual turnover is 45 million dollars. With their foresight and adroit planning the group has prevailed over the ever changing dynamics of international trade. Their commitment to quality has been one of the hall-marks since their inception. Furthermore the group is an ACCORD, WRAP, BSCI, OEKO TEX AND Sedex certified company. In keeping with their conviction in quality, the Group believes in professional management and currently boasts several level of valued addition, from knitting to retail outlets. With decentralized authority and individually accountable units, the core group is changed with the overall coordination of group activities. Each unit is fully equipped with management's logistics & IT support to monitor their total operation including production & HRM. The Group ensures the well being of all the employees. Each of the factories has first and units with physicians available, functional ETP, WTP & STP. Furthermore every worker is provided with health insurance by the company not only in order to bolster their public image and harp on social compliance. Furthermore adhering to safety regulations as per ACCORD standard, there are trained personnel for fire evacuation in all the factories with trucking electric lines that minimize the risks for fires. The factory environment, with excellent lighting and ventilation, remains one of the best in Bangladesh.
