Background

"The original business concept of International Freight Forwarding of European Freight System Ltd. began in 1994. There is now over 18 years track record of providing successful import/export handling in the same office location.

EFS has acquired experience in the shipping trade for more than 30 years and having more than 100 cities worldwide with reliable agents covering Asia, Far East, middle East, Europe, USA and Canada.

We have a unique and sophisticated approach to our business agenda that maximize performance for our clientele.

We have combined a capability of advising our clients on global shipping trade.. but very importantly within our forwarding operation on ability to execute in conjunction with the advice we have provided.

The Company maintains two offices one in Dhaka and another at Chittagong and also has a separate set up at ultra for air cargo operation.

We extend to your establishment, the professional confidence of knowing that only qualified experts will be preparing and monitoring your shipping transactions.

We hold ourselves to a very high standard of performance and invite you to benefit from our dedication to excellence.

Nature of Business

International Shipping & Freight Forwarding, Sea & Air.
