### Background

The conglomerate presently known as the Cosmos Group of Companies was set up in 1973 as a modest marketing organization dealing in commodities. In less than a decade, of its commencement of business, the group has grown in size diversified into fields covering trading, manufacturing, shipping, oil and gas power, telecommunications and media. All the companies operating under the corporate umbrella strive to adopt and develop modern management techniques aiming at greater efficiency and higher productivity. With its eyes set on international cooperation, each company of the Group seeks collaboration with entrepreneurs in other countries, often entering into joint-ventures, equity participation and other forms of association designed to achieve optimisation of local resources through employing state of the art technology and injecting both foreign and local capital.

### Nature of Business

Oil and gas related business, downstream, midstream and upstream
