More than 15,000 employees in Asrotex Group
(Including Fariha Knit Tex Ltd.)

Background

Asrotex Group started its journey in 1996 as a small manufacturer of ready-made knitted garments and accessories. Over the years, it emerged as one of the leading conglomerates of the country with substantial establishments along with business diversification into other industries, such as, IT and real estate. The Group also operates two independent buying offices. Today, the Group is one of the major exporters of RMG to different destinations across the globe, particularly EU, North America, and East Asia. The Group has been maintaining its status as one of the largest sources of foreign exchange in the RMG sector and a proud recipient of the National Export Trophy.

The company owns one of the largest vertical setups for manufacturing garment and accessories along with state-of-the-art knitting, dyeing, washing, printing, and garment testing facilities. The Group prides in having technologically advanced manufacturing processes equipped with automation, modern machineries, and a technically sound workforce. All these processes, equipment, and people allow the company to offer a diverse range of products and services to give it an identity of one-stop solution for its valued customers.

The Group with its three major factories and other enterprises is acclaimed for its commitment in maintaining the highest standard of ethical and sustainable businesses in creating values for

its people and the society. The main driving force behind this value creation has always been its employees who are guided and inspired by the vision and philosophy of its founder and Managing Director, Mr. Asadul Islam. Transparency and accountability are the two central tenets that characterize business transactions of the company that flows from the leadership principles demonstrated by the MD who has been adjudged as the highest taxpayer of Narayanganj District for the last three consecutive years.

Nature of Business

100% Export Oriented Readymade Garments Industry.
