Background/Profiles

SQ Group, one of the leading apparel manufactures of Bangladesh, started its journey back in 1993. With a vision of striving for efficient and sustainable operations, SQ paved the way and set new standards for the garment manufacturing industry. SQ endeavors for innovation and technology supremacy to entice the best patrons and better values. The growth trend of SQ over the last two decades has been outstanding. Since 2008, SQ has expanded to lingerie manufacturing from sweater manufacturing. At present, the Group operates through its three main manufacturing units:

- i) SQ Celsius Limited for knitwear (Sweaters)
- ii) SQ Birichina Limited for Lingerie
- iii) SQ ColBlanc Limited for active wear
- iv) SQ Hues Limited for the wet processing cluster to provide vertical support with yarn dyeing, garment washing, and fabric knitting & dyeing, garment dyeing, garment washing and fabric knitting & dyeing.

The manufacturing units of SQ are located in Maona, Gazipur (SQ Celsius Unit 1) and SQ Station in Bhaluka, Meymensingh. SQ station is a mini industrial hub where all production facilities are designed to ensure sustainability, and each of them has achieved the highest distinction in LEED Certification by the US Green Building Council (USGBC).
