Background

Innovative business approach, foresight, sustainability, resource mobilization, quality assurance and superior service have been the factors of Giant Group success.

Nature of Business

The Group Conglomerate of 4 units spread across 2 facilities of Knit garments & Textile establishments, which was founded more than 30 years ago. Today the company annual turnover is 50 million dollars. With their foresight and adroit planning the group has prevailed over the ever changing dynamics of international trade. Their commitment to quality has been one of the hall-marks since their inception. Furthermore the group is an ACCORD, WRAP, BSCI, OEKOTEX, GOTS, CTPAT, ISO 14001 and SEDEX certified company. The groups consists of Knitting, Dyeing, Brushing/Shedding, Washing, Sewing, Printing, Embroidery. Giant Group considers itself an end to end solution provider. Over the years, their size has changed but one underlying idea has stayed the same – the customer and the environment are at the center of everything they do. Giant Group consider their skilled workforce to be their greatest asset and take great pride in them. Giant Group seeks to minimize waste, promote recycling, reduce energy consumption, reduce harmful emissions and, where possible, to work with suppliers who are committed to caring and protecting for the environment.

Giant Agro Processing Limited – GAPL, is an agro based company involved in the production, processing, preservation- storage and marketing of hybrid vegetable seeds, with a core focus on potato seeds. GAPL, a sister concern of the Giant Group, has earned its reputation to be an innovative and socially responsible institution.
