Background:

Archetype Group is a leading international construction consultancy company, we are shaping buildings that last with a full range of consulting services: Architecture & Master Planning, Building Engineering, Industrial & Process Engineering, Project & Cost Management.

Since 2002, Archetype Group has been working on over 1,500 projects in 50 different countries. With a thousand of collaborators on four continents, we have showcased our expertise, our experience, and our knowledge at the service of hospitality, real estate and industrial projects.

Archetype reality is the preferred partner for real estate and hospitality players. It brings best-in-class services for developers, constructors, and brands. Archetype reality focuses on four main sectors: hospitality, mixed-use high-rise, commercial & retail, and healthcare.

Archetype industry serves the most renowned companies in industry and manufacturing. The company has gained excellence in understanding the most sophisticated expectations of each sector. Archetype Industry focuses on pharmaceuticals & cosmetics, food & beverage, chemicals, and advanced technologies & data centers.

Archetype is a new integrated architecture signature studio that combines feasibility with creativity, delivering cutting-edge experiences that can meet or go beyond our clients' ambitions.

Archetype Group has also been a long-time player in green buildings design, collaborating and advocating with public and private environmental organizations. Archetype Group is committed to a zero and low carbon footprint, recognized by the International Finance Corporation (IFC) of the World Bank and the Excellence in Design for Greater Efficiencies (EDGE).

Archetype projects are built to last and leave positive impacts on society.
Archetype Group acknowledges its influence in the industry for Shaping Tomorrow.
